

Warranty Information

ATEX Fans

This document serves to address our terms and condition of sale in regards to warranty and representations of ATEX fans.

IMPORTANT INFORMATION

It must be emphasised that equipment manufacturers and distributors are not ATEX consultants and cannot play any role in the process of determining the risk of explosion and cannot therefore, specify the ATEX 2014/34/EU code for products supplied.

Axair Fans UK Limited Terms and Conditions of sale, **Section 10 SPECIFICATION** applies to both standard and ATEX explosion proof fans.

Where Section 10.4 is concerned, the purchaser of an ATEX explosion proof fan must pay special attention to ensure **“that he has disclosed all matters which may affect the fitness for their purpose, of all goods supplied”**. This means that he has referred to the end users risk assessment document, produced in accordance with the Dangerous Substances and Explosive Atmospheres Regulations (DSEAR), in order to define the ATEX fan “marking.

The installer of the fan must be a competent person who is familiar with the requirements of the ATEX installation standard 60079-14.

IT IS UNLAWFUL IN EC COUNTRIES TO INSTALL EQUIPMENT IN A FLAMEPROOF ZONE THAT DOES NOT MEET THE MINIMUM REQUIREMENTS OF THE ATEX DIRECTIVE 94/9/EC.
